Aromatic Candles

From a distance, our wax Aromatic LED Pillar candles are almost indistinguishable from regular scented candles. They are designed to deliver therapeutic grade aroma, similar to lighting a premium quality scented candle. The candle flame also dances with the same fluidity as an actual flame, reflecting lights and creating an infinite flame shape. This is made possible by harmonizing our unique flame design, flame movement, authentic candle flame color rendition, with our specially formulated therapeutic grade aroma binder.

Safe Scented Candles

Your home is your sanctuary where you rest your mind and recharge your senses after a long day. A restorative process helped wonderfully by candle light. A soft warm glow, imbued with aromatic scents lulls and soothes your senses, leaving you feeling calmer and fresher, almost magically.

In CandleJoy, we have created aromatic LED candles that deliver the same pleasurable experience of lighting a scented candle, but with added safety, whether it's to end your day... or to begin an enjoyable evening with loved ones.

Aroma Benefits

Apart from its pleasing aroma, scented candles are beneficial for other reasons. Foremost is the therapeutic effect certain natural essential oils have on influencing one's mood and alertness positively. Then there's the aromatic gels used in our Aroma Pillar candles which contain natural insect repellent keeping nuisances like mosquitos away.

Pillar smooth series

Scent and Wellness

CandleJoy is the first electronic candle manufacturer in the world, that has created an aromatic LED candle. Being pioneers, we also design, test and manufacture the special aroma fragrance sachets that are used in our LED candles.

Pillar

The CandleJoy Aromatic Pillar is created to faithfully replicate lighting a combustible scented candle, but without the dangers of an open flame.

Therapeutic grade essential oils and fragrances are packed in a custom designed binder. On average, the aroma scent lasts between 1 to 2 months.

Unless specially customized, our Taper and Votive candle designs are not aromatic.

Smooth wax pillars are simply attractive. Made of real wax, their presence add warm and beauty to the places they decorate.

Pillar - Smoot

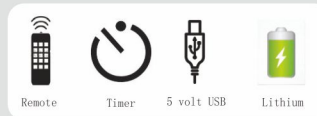

Product Spec:

Outer Shell : Smooth Wax

Diameter : 9 cm

Height : 13 cm / 18 cm / 23 cm

Power : D Batteries, lithium or 5V input

Many designs could be crafted out of wax. From time to time, our artisans would let their imagination run wild. Made of real wax, these special candles light-up the occasions and make them memorable.

Pillar - Carvin

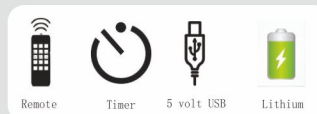

Product Spec:

Outer Shell : Carved Surface Wax

Diameter : 9 cm

Height : 13 cm / 18 cm / 23 cm

 or 5V input

Mother nature creates everything unique. Using materials from nature, these special candles add characters to themselves. Since these handmade wax candles are "one-of-a-kind", they are as unique as they are special.

Taper

Using innovative moving flame technology, our tapers are safe and energy efficient. Fitted in classical or modern chandeliers or in any Taper lamp holder, they are both attractive and practical.

Three types available

Type A
AA battery

Type B
Lithium

Type C
High Voltage
E14

Product Spec:

Outer Shell : ≤ 2 cm
 Diameter : 10.5cm / 15cm / 20cm / 25cm / 30cm
